Proposal 1-UMHLANGA BAKEHOUSE

1. Organisation Overview

- Name: Umhlanga Bakehouse

- History: A family-owned bakery established in 2021 in Umhlanga, Durban. We specialize in artisanal breads, cakes, and pastries baked fresh daily.

- Mission:To bring joy through fresh, handcrafted baked goods made with local ingredients.

- Vision: To be Umhlanga’s favorite bakery for daily bread and special occasions.

- Target Audience: Local residents, cafes, event planners, and tourists aged 18-55 in Umhlanga and Durban North.

2. Website Goals and Objectives

- Goals:

1. Take online cake and catering orders

2. Showcase daily menu and specials

3. Increase foot traffic to the store

- KPIs: Number of online orders, contact form submissions, social media clicks, page views on menu

3. Current Website Analysis

- Strengths: Active Instagram with good photos

- Weaknesses: No website, customers can’t see full menu or order online

- Improvement: Need e-commerce style site with menu and order form

4. Proposed Website Features and Functionality

- Homepage: Hero slider of cakes/bread, today’s specials, "Order Now" button

- About Us:Story, bakers, use of local ingredients

- Products: Menu with categories: Breads, Cakes, Pastries. Prices included

- Enquiry/Order: Form for custom cake orders, catering quotes, bulk orders

- Contact: Store address, 2 locations with embedded maps, trading hours, contact form

5. Design and User Experience

- Colour Scheme:Warm tones - Cream `#FFF8E1`, Chocolate `#5D4037`, Strawberry Pink `#F06292`, Gold `#FFB300`

- Typography: Headings: Playfair Display. Body: Lato. Feels premium and appetizing

- Layout: Food photography focused, grid layout for products, sticky nav

- UX: Fast loading images, easy product browsing, simple order form

- Wireframes: Sketches for homepage, product grid page, and order form page

6. Technical Requirements

- Hosting:Business hosting with SSL, e.g. http://Domains.co.za

- Domain: `umhlangabakehouse.co.za`

- Languages/Frameworks: HTML5, CSS3, JavaScript. Will use basic JS for image gallery

7. Timeline and Milestones

- Week 1-2: Menu photography, content writing, wireframes

- Week 3-4: Build 5 pages and responsive layout

- Week 5: Implement order form and testing

- Week 6: Launch and handover

8. Budget

- Domain: R100/year

- Hosting + SSL: R120/month = R1,440/year

- Photography: R1,500 once-off

- Maintenance:R600/year

- Total Estimated Year 1: R3,640

PROPOSAL 2: DURBAN COMMUNITY GARDENS NPO

1. Organisation Overview

- Name:Durban Community Gardens NPO

- History:Founded in 2019, Durban Community Gardens NPO started to address food insecurity in KwaZulu-Natal townships. We run 5 urban gardens across Durban and teach sustainable farming to 200+ families.

- Mission:To empower local communities through sustainable agriculture and food security programs.

- Vision:A Durban where every household has access to fresh, healthy, and affordable produce.

- Target Audience: Low-income families, volunteers, donors, schools, and local government partners in Durban and surrounding areas.

2. Website Goals and Objectives

- Goals:

1. Increase volunteer sign-ups by 40%

2. Attract donors and sponsors for garden expansion

3. Educate the public about urban farming

- *

KPIs:Number of volunteer applications, donation amounts, website traffic, newsletter sign-ups

3. Current Website Analysis

- Current State:No existing website

- Need: A central online presence to share impact stories, recruit volunteers, and accept donations

4. Proposed Website Features and Functionality

- Homepage:Hero image of gardens, mission statement, "Donate" and "Volunteer" CTA buttons

- About Us: History, mission, team, gallery of garden locations

- Programs/Services:Details on workshops, school programs, food distribution

- Get Involved: Enquiry form for volunteering, donations, and sponsorships

- Contact: Contact info, Google Map with 5 garden locations, contact form

5. Design and User Experience

- Colour Scheme:Earth tones - Green `#2E7D32`, Soil Brown `#8D6E63`, Sun Yellow `#FBC02D`, White `#FFFFFF`

- Typography: Headings: Montserrat Bold. Body: Open Sans Regular. Clear hierarchy for readability

- Layout: Clean, image-heavy, mobile-first. Easy navigation bar

- UX: Simple 1-page forms, accessible colors, clear calls to action

- Wireframes: Low-fidelity sketches will show homepage with hero + 3 cards, and multi-step volunteer form

6. Technical Requirements

- Hosting:Affordable shared hosting with cPanel, e.g. xneelo or Afrihost

- Domain:`durbancommunitygardens.org.za`

- Languages/Frameworks: HTML5, CSS3, JavaScript. No framework needed for static site

7. Timeline and Milestones

- Week 1-2: Research, content, wireframes

- Week 3-4: HTML/CSS development of 5 pages

- Week 5: JavaScript, forms, testing

- Week 6: Final submission and deployment

8. Budget

- Domain:R120/year

- Hosting:R80/month = R960/year

- Development:R0 - done by student

- Maintenance:R500/year

- Total Estimated Year 1: R1,580
